

## **The Global Learning Requirement for the Business Management Major**

October 18, 2021

The purpose of the Global Learning requirement for the Business Management major is to inculcate students with an understanding of the importance of the global context of contemporary business. This critical thinking skill requires students to add another layer of perspective to their analyses of problems by recognizing the need for knowledge of political, legal, economic, social, technological, environmental, and cultural factors that shape how business is conducted around the world.

This requirement can be satisfied by the study of a language through the 202 level, participation in any full-semester or short study abroad program (including the Chesapeake Semester), or by taking two courses. For this last option, one course is to be chosen from List A and one course is to be chosen from List B. This list will be reviewed annually upon publication of the Course Catalog. Please direct any questions to Dr. Susan Vowels, chair, Department of Business Management, [svowels2@washcoll.edu](mailto:svowels2@washcoll.edu).

Choose one from List A.

BUS 310 International Business  
BUS 311 Global Business Strategy  
BUS 352 International Marketing  
BUS 356 Multinational Financial Management  
BUS 294, 394, 494 Special Topic course – must be approved in advance by department chair

Choose one from List B. Please note that some courses are cross-listed in multiple departments; List B includes only the course number of the home department.
